EESL are an embroidery and garment-printing specialist. We are a family run business, and have been based in Edinburgh for over 10 years.

We put a lot of care into personalising our garments. That is why we never compromise on quality, whilst still providing our customers with a quick and reliable service.

We understand replacing and buying school uniform can be an endless task, not to mention an expensive one, which is why we want to help as much as possible. All of our garments are sourced from reputable suppliers ensuring quality and longevity. We accept school vouchers allowing the purse strings to be stretched that little bit further, and your little darlings can try before you buy! If that wasn't enough we also provide a personal delivery service and a pick up point facility.

If you have any other garments you would like personalised or would like us to supply and personalise garments for you, we would love to hear from you.
