

In a nutshell EVS offers long term fully funded volunteer placements for young people aged 17-30 years old throughout the world. Placements usually last between 2-12 months and volunteers work with a local NGO or charity. The cost of flights are covered, volunteers receive accommodation (either with a host family or in rented accommodation) and they receive a small monthly allowance. Sometimes language tuition is included in the project also.

We have currently have a number of opportunities available and I wondered if you wouldn't mind passing them on to the groups you work with. We have fully funded placements available in Madeira, Spain, France, Italy, Moldova, Denmark and Ukraine. Here is a link to our website with the opportunities.
