

Are you a future Engineer?

Re-design and re-imagine our world

What makes an engineer?

- I enjoy problem solving
- I am interested in how things work
- I like science and maths
- I enjoy working in a team
- I want an exciting and fun career

Exciting areas to be involved in:

Electric vehicles, Renewables, Sustainable manufacturing, Composite materials, Medical, Aerospace, Robotics, Microelectronics, Bioelectronics, Buildings, Environmental, Fire safety, Low energy processes, Carbon capture, Nano materials

Find out:

From the Engineering staff:

What are my employment prospects? What course options do I have? What does the course involve? How will I be taught? How am I assessed?

From Engineering students:

Is the course stimulating? What is it like being a student in Engineering? What societies can I join? What's the social life like? How much does it cost to live in Edinburgh? What are my career choices?

All your questions answered Interactive Talks From Students and Staff

The talks will run from Monday to Thursday (5 to 6 pm) on the following dates:

Chemical Engineering	14 th , 18 th , 26 th October, & 3 rd November
Civil Engineering	13 th , 21 st , 25 th October, & 2 nd November
Electronics and Electrical Engineering	11 th , 19 th , 27 th October, & 4 th November
Mechanical Engineering	12 th , 20 th , 28 th October, & 1 st November
