

# Success Wheel: The Standards

I know where I can get support with The Standards

I use the Standards to explore areas of interest for my professional learning

I use the Standards to reflect on the impact of my professional learning

I use the Standards to identify and build upon areas of strength and for development

I am confident moving across and between the Standards

I know which aspects of the Standards link to my current role and aspirations

I maintain a reflective record of professional learning and evidence of its impact on my thinking and professional actions linked to the Standards

I use the Standards to support my professional learning in **meaningful** ways and discuss this as part of my PRD
