Need help?

Click on 'select all' this will put a tick in all the boxes, you can individually click each box if you only want to 'share' certain records. This needs to be done on each page.

Once you have 'shared' your records this column will now say 'yes'

Once this has been done, click on the 'share' button, a pop-up menu will ask who you want to 'share' your records with, click on reviewer, they will receive notification to say you have done this.

If it is your PU sign-off year, click here to return to the Professional Update box and click on the 'submit' button. Please note that the 'submit' button is only available in your 'sign-off' year and if you have a reviewer 'associated' with your account.

You can still 'share' your PL records for your yearly PRD meeting as long as you have a reviewer associated with your account
