

We're very picky about who works for Virgin. After all, we didn't become a household name brand without working hard. So when you wear the Virgin red, you have to be at the top of your game. Our customers expect the very best service and we expect you to deliver it.

Excited and ready for a new challenge in 2016? Our search is on for two Red Hot Apprentices to join our Engineering Team based in Craightinny Depot, Edinburgh.

It's good times here at Virgin Trains, we're investing heavily in our current fleet of trains but are also eagerly awaiting the next generation of trains to hit our tracks. Our people are at the heart of everything we do, so we're full steam ahead with our search to find and train our newest Apprentice Engineers.

Are you curious about how things work? Do you have a technical mind? If so, then read on....

This apprenticeship blends both theory and practical learning, ensuring that you're equipped with the knowledge and skills to start your career on the right tracks. You will study full time at Forth Valley College in your first year and then one day a week from year two to four, with the remainder of your time working on our lovely trains. You'll be learning all aspects of our maintenance, from engines and suspension, to air conditioning and lighting, with lots more along the way!

This is an exciting opportunity which will set you up for a challenging and rewarding career in a fast paced and innovative industry.

To apply for this role, you must meet our minimum qualifications: (a total of 4 qualifications as follows)

- Standard Grade at a minimum Level 3 or CFE National 5 equivalent in the following:
 1. English
 2. Maths
 3. Physics or Chemistry
 4. Physics, Chemistry, Biology, Tech Studies, Craft & Design, Graphic Communications or Mechatronics
- Any additional technical subjects would be an advantage

Red Hot Apprenticeship Opportunities

Salary: £16,891 PA

Throughout your apprenticeship you can expect first class training and mentoring from our teams who will be supporting you along the way to receive the following qualifications;

- SVQ2 in Performing Engineering Operations
- NC in Engineering Practices
- HNC in Electrical Engineering
- SVQ3 in Electrical and Mechanical Engineering

As well as the minimum qualifications, you'll need to be motivated, hard working and be an effective problem solver. You'll need to have a thirst for knowledge, ensuring that you are continually learning and putting your skills to practice. We aim to provide an amazing customer experience so you need to love people as well as trains!

Does this sound like your "bag"? Apply now and tell us why you would make an amazing Apprentice Engineer. Brilliant people only please.
