

- Use 12 hour and 24 hour time
12 hr time must have am or pm **eg 7:25 am**
24 hr time must have 4 digits and no am or pm **eg 07:25**
- Midnight is 00:00 and Midday is 12:00
- When calculating time intervals, go to the nearest hour and up in jumps

Total Time: 6 hrs 35 mins
NOT 6.35hrs

- Speed / Distance / Time Calculations
Time must be in decimal form (see below) before calculation at Level 3
- Conversion between minutes and hours

- Remember
 - 15 Minutes = 0.25 hours
 - 30 minutes = 0.5 hours
 - 45 minutes = 0.75 hours
 - 60 minutes = 1 hour

We do not ...teach time as a subtraction

This topic will be covered in [MNU 2-10a](#)
