

The Faculty of Engineering, in partnership with the Weir Group, is delighted to provide an outreach programme for S2 Girls.

Young WEIR-WISE: Discovering Engineering with S2 Girls

is designed to inspire young female students to discover the excitement and personal satisfaction behind a career in engineering through participation in team-based challenges.

The non-residential, two-day programme will run twice at the University of Strathclyde on 20th and 21st January 2020, and then again on 23rd and 24th January 2020. There are 50 places available on each programme, all of which are fully-funded by the Weir Group. As a non-residential programme, participants must be available to travel to and from the University of Strathclyde campus (Glasgow City Centre) each day. A contribution towards travel costs will be provided and lunch will also be provided each day.

Further information on the programme, including details on the application process and deadline for applications, can be found at:
