Engineer Your Career is a **NEW**, free, virtual event

Taking place on 4th March, the event is aimed at school, college & university students through to postgraduates and early career changers. The event will coincide with World Engineering Day to join the celebration of Engineering as a career.

Hosted by Campus Media, the event is designed to stream live and watch on demand, showcasing the best of UK engineering talent & employers where you will gain valuable insights into different engineering roles and organisations. Offering the perfect chance to discover more about the industry, talk to employers about their opportunities and get advice on how to work within an industry that is shaping our world.

Here's what to expect on the day:

- Advice from inspiring speakers,
- Youth panel talks about apprenticeship and graduate routes into engineering,
- Engineering - myth V reality,
- Engineering in the RAF, live panel & careers insights,

- Soft Skills workshop,
- Further education courses to study,
- Employer insights

For more information

visit: https://www.campusmedia.co.uk/engineer_your_career/

Please register for free below if you would like to be kept informed of employers, job opportunities and future events. We will also email you after the event with links to watch the sessions on demand just in case you missed it.

We keep our communications to a minimum.

[Register here](#)

Please get involved on the chat forum during the event as we will have employers on hand to answer any questions.

You can also put your questions forward now to our apprenticeship, undergraduate and postgraduate panel members to ensure you get the advice you are looking for. Or maybe you have a question for our employer panel regarding applications, starting a role in lockdown, virtual assessment centres, etc.

Email your questions to: hello@campusmedia.co.uk

We hope that you enjoy the event!
