

Charlie's Playpod – Update

After lots of fundraising and support from our community we bought a container that acts like a giant toy-box in Law Primary and named it after Charlie Kay for all the funds he raised. We filled the container with recycled items that would otherwise go to landfill.

Initially it was used by Primary 2,3 & 4. The Pupil Council asked if all the children could be given access. All of the classes have now received training and hope to play in there too. So we need more stock to make sure it's fun for everyone!

Do you have waste products that could be reused? Reduce your waste and support play in your community such as tarpaulin, crates, dressing up items, textiles, plastic canvas, old phones, keyboards, steering wheels, carpet samples, soft cuddly toys, handbags, suitcases, buggies, tree trunks, all kinds of things! Can you help?
