

P4 Spelling Homework

This term we are focusing on common words in spelling. It would be helpful for children to practise common words at home, using the spelling activities sheet found in the Homework Pack or in another way they choose.

We have provided the full list of spelling words in case children want to challenge themselves further with more complicated words. However, we would recommend children choose 10 words at a time from the Fourth or Fifth Hundred Words and see how they manage before moving on to more challenging lists.

Please ask your class teacher if you have any queries.
