

Through practical activities, I can show my understanding of the relationship between 3D objects and their nets.

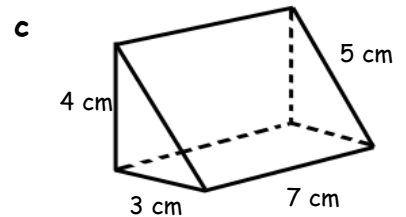

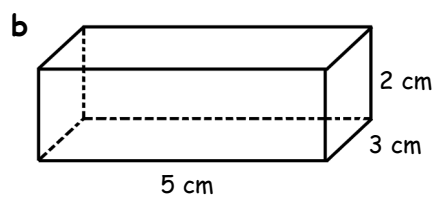

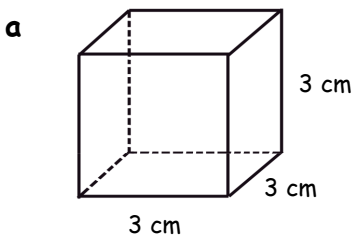

1. Which of these are nets of cubes ?

2. Write down the 3D shapes that each net below could make :-

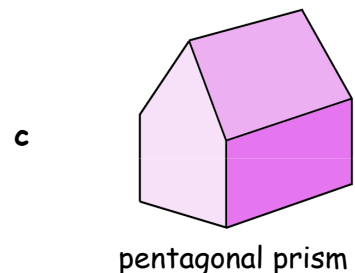

3. Make an **accurate** diagram of a net for each of the 3D shapes below :-

4. Make a neat sketch of a net for each of the 3D shapes below :-  
(It does not need to be accurate).

a cylinder

b square based pyramid

5. Which 3D shape is it impossible to make an accurate net of ?
