

Digital Learning and Teaching: what are the benefits?

Invitation

The National Digital Learning Forum invites you to take part in a series of events during June and July about teaching and learning with technology.

- How does technology currently support, enhance and improve learning for Scotland's young people?
- What's working? What's not? Where is the evidence to support digital learning and teaching?

Events

The events will be used to help to develop a solid evidence base about the potential impact of technology in our schools, which will help to set the direction of the Digital Learning and Teaching Programme for the coming period. In particular, we want to understand how digital technology contributes to the 5 key priorities for education in Scotland.

Theme	Location	Date	Timing
Raising Attainment	Glasgow (Optima Building)	13 July 2015	All events will be held from 10.00-13.00. Refreshments and a light lunch will be available.
